

RMC Residents & CHS JMG Students to Host Kissing Booth

Mary Machart, Career Specialist, Culbertson Middle School

A kissing booth for Valentine's Day and for the upcoming District Basketball Tournaments will be the first cooperative fundraiser of its kind between the school and the long-term care facility and will benefit the resident Activity program.

"Now wait, don't worry, this won't be like kissing your grandmother!"

Residents and students are making handcrafted goodie boxes that will contain Hershey's Kisses and will sell them for \$1 each. The original Kissing Booth was begun at RMC by Vickie Grimsrud, ADC in 2007 as a fundraiser to replace the aging facility van. This year, Mary Machart, JMG Specialist at CHS approached Grimsrud about using the baskets as a fundraiser for her JMG class, and a partnership was formed.

The students will help make the boxes for Valentine's Day, selling them at the school and donating 100% of the proceeds to the Activity Program. RMC will also take orders from facility staff and family and friends for Valentine's Day.

At the same time, the JMG will be selling boxes for Spirit Week to help CHS faculty and student body as well as community members in a "*Kiss the Competition Good-Bye*" campaign! This fundraiser will see 10% of the proceeds being donated to the Activity Program for the use of the templates.

RMC in turn will be selling boxes for Spirit Week to the fans of the three local teams, the Culbertson Cowboys & Cowgirls, the Bainville Bulldogs, and the Froid-Medicine Lake Redhawks through the facility.

To support this cooperative effort between generations, please contact either Mary Machart at Culbertson Schools, or Vickie Grimsrud at Roosevelt Medical Center.

You never know... someone might just kiss you for it!
